

THE ERASMUS+ PROJECT My Diversity, Our Strength IS LAUNCHED!

Co-funded by
the European Union

We are thrilled to share the highlights from our first transnational partners meeting for the project "My Diversity, Our Strength," held in the beautiful town of Torre del Mar, Spain, at the end of June. This inaugural gathering brought together representatives from Italy (Escape4Change), Spain (Consultoría de Innovación Social), France (Association D'Entrepreneuriat Social), and Belgium (Logopsycom) to set the stage for our collaborative efforts aimed at fostering inclusivity and reducing gender stereotypes.

Our first day was dedicated to laying the groundwork for our project. We kicked off with warm introductions and a detailed overview of the project's goals and responsibilities. One of the key sessions focused on presenting the project's activities and financial overview, ensuring that all partners are aligned and prepared for the journey ahead.

The second day was all about communication and ensuring the quality and impact of our efforts. We outlined our strategy for sharing our progress and engaging with a broader audience through regular updates and articles.

A robust quality assurance plan was also presented to ensure we meet our project objectives. Additionally, we discussed our approach to measuring the social impact of our work, aligning it with sustainable development goals such as quality education and gender equality.

LOOKING AHEAD,
our next meeting is scheduled to take place online in late July. We will maintain our dedication to enhancing our inclusion and diversity initiatives, particularly emphasising STEM-related activities. This meeting has laid a solid foundation for our future collaborations, and we are enthusiastic about the path forward. Stay tuned for more updates as we progress towards a more diverse and inclusive future!

● Project aims

The project was created to promote equitable access to opportunities among young people, regardless of gender.

During the project, we will create the following results:

1. A **Competence Framework** available in 4 languages (EN, ES, FR, IT).
2. A **My Diversity, Our Strength Compass** which aims to improve the skills and knowledge of young workers in non-formal education activities.
3. An **Escape Box** offering an immersive experience to tackle discrimination and improve skills in the STEM field.
4. An **Online Conference** as a final event.

The project officially started in **January 2024**. The end is fixed for **December 2025**.

● What we will do

MEETINGS, TRAINING AND EVENTS

#May 2024	Kick off Meeting in Tore del Mar, in Spain. Group set-up with the presentation of the Action Plan, The Quality Plan and the Communication Strategy.
#From April to June 2024	Development of the Competences Framework.
#From Sep. to Nov. 2024	Development of the Compass My Diversity, Our Strength.
#From Dec. 2024 to Feb. 2025	Testing of the results created previously.
#From Oct. to Dec. 2024	Co-design of the escape box.
#From Jan. to April 2025	Development of the game.
#April 2025	Second TPM in Torino, in Italy. The trainer's training will happen jointly with the transnational meeting.
#November 2025	Final online conference to present the results.
